Golf courses

From the Julian Alps to
the Adriatic sea

Let Slovenia become your sports destination

From the Julian Alps
to the Adriatic sea

In Slovenia, you can experience amazing contrasts in the same day: a morning swim in the Adriatic, followed two hours later by skiing below Alpine peaks, then an adventurous discovery of Karst subterranean phenomena and an invigorating bath in a thermal spring; an encounter with history in a lively mediaeval city and, not far away, a more solitary stroll through primeval forests or undulating, winegrowing hills.

Golf can be played at around a dozen well-tended and picturesque golf courses in Slovenia.

You can start your venture right from the Slovenia coast of the Adriatic Sea. Surfing, diving, sailing - name it and you are ready to have the most joyous moment of your lifetime.

Portorož and other coastal towns by its geographical position with more than 240 days of solar weather and various sports centres is the optimal destination for preparation of athletes.

For the tennis enthusiasts the Slovenia coast is with more than 40 tennis courts, mostly right next to the hotels, the real tennis oasis.

Continue with your sporting spirit to our pearl, river Soča. The rapids and waterfalls can be a challenge even for the most seasoned rafters.

During the trip we almost forgot Lipica, place where the Lipizzaner horses have found their home. Enjoy riding through the wonderful Karst landscape.

And here is the winter and our Julian Alps. A winter vacation in Slovenia can be as enjoyable as in other European countries famous for their winter sport resorts.
