IL MESE DEGLI SPUMANTI
SPARKLING WINE MONTH

2022

December, the last 31 days of the year, is also the month of magic, the month when we emotionally remember the old and optimistically look toward the new. All the good and bad moments are slowly shaping into a chapter we'll once remember as the year 2022.

To make the end of this chapter truly festive, we've decided to join the month of sparkling wine organized by the Touristic board Portoroz.

Until the end of December, you can order a special menu in Stara Gostilna, designed around our selection of sparkling wines made in Goriška brda.

You can make a reservation calling us on
